New Aspects of Playing Piano, Contrabass and Percussion

The Vienna-based trio of Macheiner/Barnert/Filz is breaking new musical ground with every scintillating performance. This leading-edge group is heading to America in May for performances at the Austrian Cultural Forums in Washington, DC and New York.

Their CD *New Aspects of Cutting Wood* has been critically reviewed.

“As already stated in the title, there are some well-done cuts on the CD *New Aspects of Cutting Wood*, in a most exciting but demanding way...The musicians of this group define their music as a totality of influences from European and Afro-American music. In contradiction to both tradition and avant-garde, these three musicians were able to make a unique vision come true. Very recommendable!” (quote from the magazine *musik aktuell CD Club*, January 2000).

(from right-to-left): Bernhard Macheiner - piano, Richard Barnert - contrabass, Richard Filz - percussion
